

PROJECT WORKING

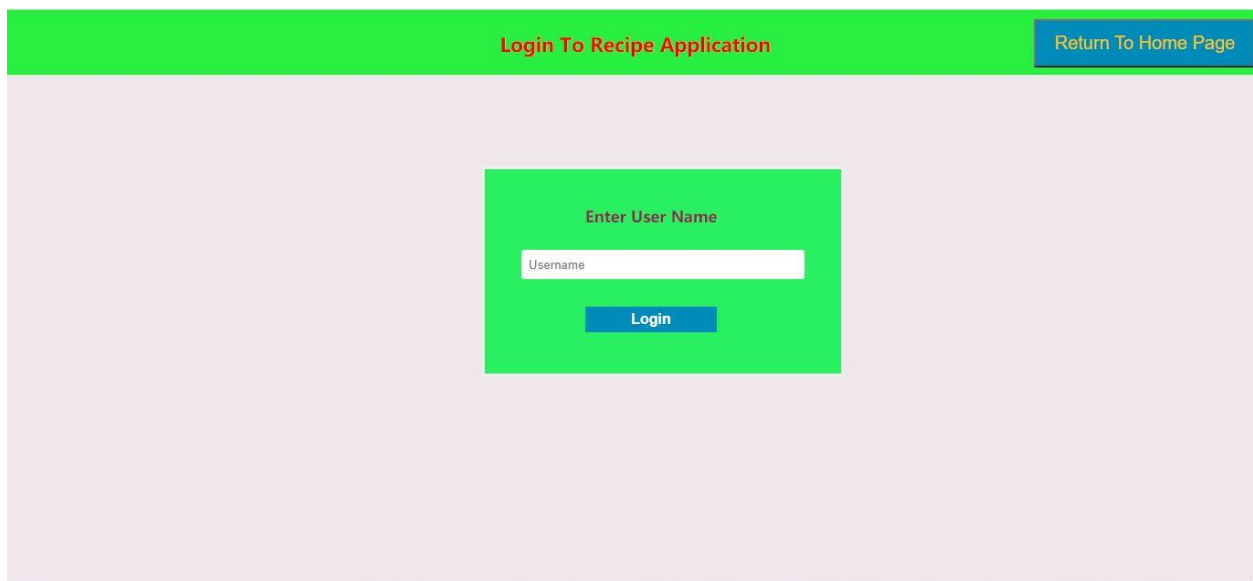

Step 1:

This is the home page of the application and user can only navigate from one page to another to view recipe details.

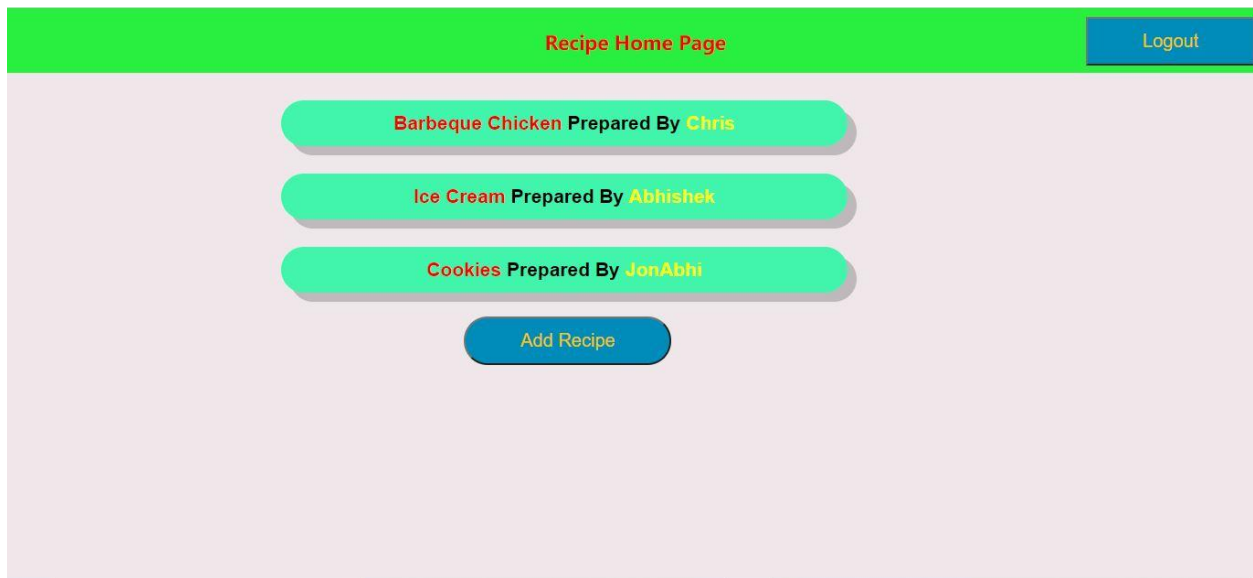

STEP 2:

The User needs to enter his name to login to the page and then add new recipes

STEP 3:

Now after the user logged in he is able to add new recipe by clicking Add Recipe button on home page.

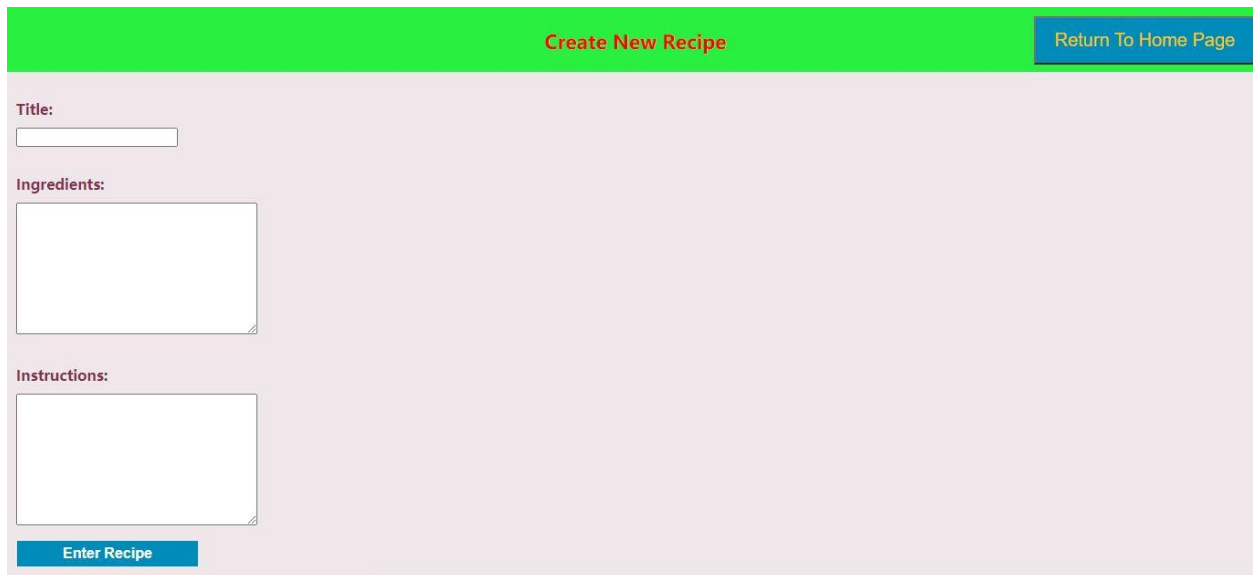

The screenshot shows the 'Recipe Home Page' with a green header bar containing the page title and a 'Logout' button. The main content area is light purple and features three recipe cards: 'Barbeque Chicken Prepared By Chris', 'Ice Cream Prepared By Abhishek', and 'Cookies Prepared By JonAbhi'. Each card is a rounded rectangle with a light blue gradient. Below the cards is a blue 'Add Recipe' button.

The user can also logout of the application and a new user can login.

STEP 4:

In the create recipe page the user has to enter title, ingredients and instructions to create a new recipe.

The screenshot shows the 'Create New Recipe' page with a green header bar containing the page title and a 'Return To Home Page' button. The main content area is light purple and contains three input fields: 'Title:' (a single-line text box), 'Ingredients:' (a multi-line text area), and 'Instructions:' (a multi-line text area). At the bottom left is a blue 'Enter Recipe' button.

Step 5:

When a user clicks on a recipe title present in home page he is shown the recipe details page.
